 ARGON Argon for TIG welding and MIG welding ALUMINIUM and STAINLESS STEEL	D - \$ 350 E - \$ 505 G - \$ 630	D - \$ 125 E - \$ 190 G - \$ 220
 ONEGAS 52 Specially formulated for MIG welding, OneGas 52 is an Argon, CO2 and Oxygen mix for clean, strong welding of MILD STEEL. Also 80/20, 90/10 & 16/3 mix available E & G size cylinders.	D - \$ 350 E - \$ 505 G - \$ 630	D - \$ 125 E - \$ 190 G - \$ 220
 OXYGEN Oxygen is combined with LPG or Acetylene to produce a super hot flame for metal cutting, welding and heating.	D - \$ 305 E - \$ 450 G - \$ 600	D - \$ 100 E - \$ 150 G - \$ 175
 ACETYLENE Used with Oxygen for Oxy-acetylene gas welding & cutting. A combined Acetylene & Oxygen flame burns at approximately 3500° degrees.	D - \$ 400 E - \$ 595 E5 - \$ 790	D - \$ 150 E - \$ 200 E5 - \$ 340
 NITROGEN Used as a purge gas when welding STAINLESS STEEL tubing, but is also used in plasma cutting & heat treating applications.	D - \$ 325 E - \$ 460 G - \$ 620	D - \$ 100 E - \$ 135 G - \$ 195
 STAINLESS 98 & 02 Low oxidising mix suited for stainless steel welding and duplex material processes.	E - \$ Not offered G - \$ Not offered	E - \$ Not offered G - \$ Not offered
 CARBON DIOXIDE Carbon Dioxide can be used for MIG welding Carbon and Alloy steel, but can also be used with Stainless and gas shielding Flux Cored Wires. Also available with Liquid Withdrawal in E & G size cylinders.	D - \$ 290 VT - \$ Not offered E - \$ 455 F - \$ Not offered G - \$ 610	D - \$ 80 VT - \$ Not offered E - \$ 145 F - \$ Not offered G - \$ 195
 BEER MIX 30 & 40 Beer Mix 30 (30/70%) & Beer Mix 40 (40/60%) are Carbon Dioxide & Nitrogen mixtures used to dispense heavy beers & stouts.	D - \$ VT - \$ E - \$ Not offered F - \$ G - \$	D - \$ VT - \$ E - \$ Not offered F - \$ G - \$
 BEER MIX 55 Beer Mix 55 is a Carbon Dioxide and Nitrogen mixture (55/45%) used to dispense most beer types, and eliminates wastage issues with slow moving bulk beers.	D - \$ 330 VT - \$ Not offered E - \$ Not offered F - \$ Not offered G - \$ Not offered	D - \$ 110 VT - \$ Not offered E - \$ Not offered F - \$ Not offered G - \$ Not offered
 LPG 15KG Liquefied Petroleum Gas - used for fueling forklifts. 45KG Liquefied Petroleum Gas Industrial - used for gas generators, industrial heating, also used with Oxygen for cutting metal, silver solder, brazing & heating.	15KG - \$ 611 45KG - \$ Not offered	15KG - \$ 95 45KG - \$ Not offered

Please note:

Price increase from 7th July 2025

Food Grade Argon, Carbon Dioxide, Nitrogen & Helium are also available. All prices as of April 2024 and include GST
