

NO RENT. NO CONTRACTS.

#1 IN WA RENT FREE INDUSTRIAL GASES

STEP 1 - Purchase a cylinder

On your first purchase, receive any full cylinder of the One Gas range, completely contract free. Never pay rental fees again.

STEP 2 - Swap

When you're ready to swap your cylinder, return it to your nearest agent and only pay for the gas. Our system is rent free.

	<h2>ARGON</h2> <p>Argon for TIG welding and MIG welding ALUMINIUM and STAINLESS STEEL.</p>	D - \$ 330.00 E - \$ 475.00 G - \$ 599.00	D - \$ 105.00 E - \$ 160.00 G - \$ 190.00
	<h2>ONEGAS 52</h2> <p>Specially formulated for MIG welding, OneGas 52 is an Argon, CO2 and Oxygen mix for clean, strong welding of MILD STEEL. Also 80/20, 90/10 & 16/3 mix available E & G size cylinders.</p>	D - \$ 330.00 E - \$ 475.00 G - \$ 599.00	D - \$ 105.00 E - \$ 160.00 G - \$ 190.00
	<h2>OXYGEN</h2> <p>Oxygen is combined with LPG or Acetylene to produce a super hot flame for metal cutting, welding and heating.</p>	D - \$ 280.00 E - \$ 425.00 G - \$ 575.00	D - \$ 75.00 E - \$ 125.00 G - \$ 150.00
	<h2>ACETYLENE</h2> <p>Used with Oxygen for Oxy-acetylene gas welding & cutting. A combined Acetylene & Oxygen flame burns at approximately 3500° degrees.</p>	D - \$ 375.00 E - \$ 570.00 E5 - \$ 750.00	D - \$ 125.00 E - \$ 175.00 E5 - \$ 299.00
	<h2>NITROGEN</h2> <p>Used as a purge gas when welding STAINLESS STEEL tubing, but is also used in plasma cutting & heat treating applications.</p>	D - \$ 300.00 E - \$ 435.00 G - \$ 590.00	D - \$ 75.00 E - \$ 110.00 G - \$ 165.00
	<h2>STAINLESS 98 & 02</h2> <p>Low oxidising mixes suited for stainless steel welding and duplex material processes.</p>	E - \$ 475.00 G - \$ 599.00	E - \$ 160.00 G - \$ 190.00
	<h2>CARBON DIOXIDE</h2> <p>Carbon Dioxide can be used for MIG welding Carbon and Alloy steel, but can also be used with Stainless and gas shielding Flux Cored Wires. Also available with Liquid Withdrawal in E & G size cylinders.</p>	D - \$ 285.00 VT - \$ 370.00 E - \$ 430.00 F - \$ 500.00 G - \$ 590.00	D - \$ 70.00 VT - \$ 95.00 E - \$ 120.00 F - \$ 145.00 G - \$ 175.00
	<h2>BEER MIX 30 & 40</h2> <p>Beer Mix 30 (30/70%) & Beer Mix 40 (40/60%) are Carbon Dioxide & Nitrogen mixtures used to dispense heavy beers & stouts.</p>	D - \$ 315.00 VT - \$ 390.00 E - \$ 475.00 F - \$ 530.00 G - \$ 599.00	D - \$ 95.00 VT - \$ 120.00 E - \$ 140.00 F - \$ 155.00 G - \$ 170.00
	<h2>BEER MIX 55</h2> <p>Beer Mix 55 is a Carbon Dioxide and Nitrogen mixture (55/45%) used to dispense most beer types, and eliminates wastage issues with slow moving bulk beers.</p>	D - \$ 315.00 VT - \$ 390.00 E - \$ 475.00 F - \$ 530.00 G - \$ 590.00	D - \$ 95.00 VT - \$ 120.00 E - \$ 140.00 F - \$ 155.00 G - \$ 170.00
	<h2>LPG</h2> <p>15KG Liquefied Petroleum Gas - used for fueling forklifts. 45KG Liquefied Petroleum Gas Industrial - used for gas generators, industrial heating, also used with Oxygen for cutting metal, silver solder, brazing & heating.</p>	15KG - \$ 579.00 45KG - \$ 580.00	15KG - \$ 62.70 45KG - \$ 185.00
